The jellyfish joke

Vicky was often a naughty girl and she did horrible things to her brothers. For example, she put salt – instead of sugar – in their tea. She put toy spiders in their beds. She liked anything that made her laugh.

One Sunday she and her family were at the beach. It was a hot and sunny day, so everyone was in the ocean. "Come on," she told her younger brothers. "Let's go in the water!" In her hand she was holding a plastic bag, but no one saw it.

When they were swimming in the ocean she put her plastic bag in the water. It looked like a jellyfish! "Help! Help!" she shouted, pointing at the bag. "There's a jellyfish in the ocean! Quick! Get out of the water!"

People started to scream. Her brothers were really scared. Soon, everyone was jumping out of the water and running to the sand. "Jellyfish!" they shouted, but Vicky was laughing. She stayed in the ocean. "Mmm. This is great," she thought. "No one else is in the ocean. Just me!"

Suddenly she looked behind her. She saw a big jellyfish next to her foot and it wasn't her plastic bag. It was a real one. "Help! Help!" she cried. She was really scared now. Her mother ran into the water and rescued her quickly. When Vicky was at the beach, she was sad. "I'm sorry, Mom. That was a stupid game." Some of the people at the beach looked angry. "I feel terrible," she said.

Vicky put salt instead of sugar in her brother's tea.

Write one word on each line.

Example We still haven't explored our oceans completely,
1 but we know that there some very interesting
animals under the ocean. The Australian blue-ringed octopus, for
example, is only six cm long, but very dangerous. We have learned
that jellyfish aren't fish! They eat fish! They have been in our seas and
2 oceans 650 million years. Another interesting
sea animal is the squid. It has eight legs. The giant squid is very big.
3 It can be 14 m long and it has the biggest eyes
the world! The giant Japanese spider crab has lived in the ocean
4 the time of the dinosaurs. It's four m across. It
has two claws and eight thin legs with white spots. We know that
some of the sea animals are very dangerous, but there are many
5 things that we haven't learned about them !

7 Look at the three pictures. Write about this story. Write 20 or more words.
